schooltool Mobile Application: Getting Started

The new schooltool mobile application is now available! Parents and students can now log in to see information about current schedules, assignments, and attendance. Users will also be able to receive push notifications when teachers submit assignment grades.

To get started using the schooltool mobile app, you will need the website (URL) and the login account provided by your district (this is the parent or student portal account that you use to access schooltool).

1. Download and install the schooltool mobile app (click on the images below to download from your device's app store).

From the App Store (for Apple devices):

From the Play Store (for Android 4.0 and higher):

2. Log in using the account information provided by your district.

After installing and opening the schooltool mobile app, enter your schooltool credentials and click the Log in button.

The screenshot shows the login interface of the schooltool mobile app. At the top, there is a header with the schooltool logo and name. Below the header is a large blue circular logo with a white 'S'. Underneath the logo is a text input field containing the URL <https://st-ly.mhric.org/liberty>. Below the URL field are two more text input fields: 'Username' and 'Password'. Under the 'Password' field is a checkbox labeled 'Stay logged in'. At the bottom of the form is a blue button labeled 'Log in'.

The following fields are required:

- URL: Enter the URL (website) used to access schooltool (for example, <https://st-ly.mhric.org/liberty>).
- Username: Enter your schooltool username, which may be an email address.
- Password: Enter the password you use to log into schooltool.

Use the "Stay logged in" option if you do not want to enter this information each time you access the app.
