

Liberty Central School District's Summer Enrichment Program 2024

Liberty Central School District is thrilled to announce our second summer enrichment program, offering captivating opportunities for learning and development. If your child is eager to join any of the workshops listed below, please click the link to register. All workshops will take place from 7:45 to 11:45 a.m. Mondays through Thursdays. Additionally, transportation will be provided for participants, along with breakfast and lunch.

All workshops are conducted in English. The registration forms have been translated to Spanish for your convenience.

In case of an excess of applicants, a lottery system will be utilized to select participants. Parents will be notified of workshop acceptance by June 1

Registration will close on April 30.

Animation for Grades K-1 and 2-4

Dive into the fascinating world of animation with our engaging course designed for young creatives! Unleash your imagination using Play-Doh, Legos and action figures as you delve into the secrets of movement, sculpture and construction. Through hands-on activities, participants will learn the art of stop-motion animation using the Stop Motion Studio, crafting their own captivating short films. But that's not all—we take it a step further by blending coding with animation. Embark on an exciting journey as you combine your newfound coding skills with animation techniques to produce a thrilling short film featuring your very own Sphero navigating intricate obstacle courses. This dynamic course is the perfect blend of creativity and technology, ensuring a summer filled with fun, learning, and the joy of bringing your imagination to life!

Session 1: July 8-18 for Grades K-1

Session 2: July 22 – Aug. 1 for Grades 2-4

Location: Liberty Elementary School

Teacher: Maxine Fodor

Coding for Grades K-1 and 2-4

Embark on an exciting journey as students delve into the world of Sphero robotics! Discover the mechanics and control of these fascinating devices, mastering the art of coding to create simple shapes and designs. Harnessing these newfound skills, participants will craft their own unique obstacle courses, navigating both their creations through obstacle courses. This hands-on exploration not only introduces students to Sphero technology but also cultivates teamwork and problem-solving abilities, making learning an exhilarating adventure!

Session 1: July 8-18 for Grades K-1

Session 2: July 22 – Aug. 1 for Grades 2-4

Location: Liberty Elementary School

Teacher: Ashley Bury
